

AP-V66C0B

12-Fiber, LC Duplex, PB Insert, Multimode/Singlemode, Aqua

The Adapter Panels fit **CablesPlus** Premise Enclosures with 4.687 inch (11.9 cm) hole-to-hole spacing, the panel footprint used for the RAC, WAC and adapter-style enclosures.

Built of 16-gauge steel, these panels are powder-coated for a long lasting, rust-resistant finish.

Adapters with PB (phosphor-bronze) alignment sleeves are suitable for average multimode or singlemode use. For ultra-low loss singlemode applications or frequent matings, adapters with zirconia ceramic alignment sleeves will provide exceptional performance.

The LC Duplex 12-Fiber adapter panel has 6 LC duplex feed-thru couplers in the panel.
