CyberPower's Power Distribution Unit (PDU) provides additional outlets for your rackmount power needs. The 1215RM offers 10 (ten) 15A rear-mounted outlets in the 19" 1U case. The rugged metal housing can withstand the most demanding environments and a 15' cord ensures compatibility for most rackmount applications. CyberPower PDU's can also be used for retail, security, POS, telecommunications, networking, audio/video displays, or anywhere dedicated power distribution is needed.

- EMI/RFI Shielding - Provides shielding against electromagnetic interference & radio frequency signals. Most commonly, this is used to prevent line noise or "humming" that occurs over telephone lines or stereo electronics.
- Resettable Circuit Breaker - Convenient unit reset switch in case of an overload.
- ISO & Safety Certifications - All CyberPower's manufacturing facilities are ISO-9001 Quality Tested. Our products are also UL Recognized.

## Technical Specifications

<b>General</b>	
Model #	CPS1215RM
<b>Input</b>	
Voltage	110/120 Nominal
Frequency	60Hz
Current Draw	15A
Load Capacity	1800 VA
Plug Type	NEMA 5-15P
Cord Length	15'; 14 Gauge
<b>Output</b>	
Outlets - Total	10
Outlets - Front	None
Outlets - Rear	10 x NEMA 5-15R
<b>Surge Protection and Filtering</b>	
Surge Suppression	N/A
EMI/RFI Filtration	EMI/RFI
<b>Indicators</b>	
Indicator Lights	Power On (Red)
<b>Physical</b>	
Dimensions (WxHxD)	19" x 1.75" x 4.25"
Weight	4.9 lbs.
Color	Black
<b>Warranty</b>	
Product Warranty	3 Year
