AVOID UNSEEN RISK

The Kendall Howard™ ESD Cabinet provides technicians in static control environments an ESD safe storage solution for protecting sensitive electronic components across a multitude of industries. The ESD Cabinet is designed with versatility and protection in mind and is fully enclosed, equipped with a locking door keeping sensitive equipment safe. Inside the Cabinet is a fully integrated louvered panel system featuring 153 louvered cut outs for mounting additional accessories.

FEATURES

- Built with a fully ESD Safe louvered back panel for a Variety of conductive bins offered
- Shelves, Drawers and Pegboards offered separately for customization
- The top of the cabinet can be used as a shelf and is ESD safe
- Can be grounded two ways. A 10' long Earth ground wire is provided to attach to common grounds. The second ground is built into a leg leveler with a unique aluminum boot.
