- Custom cable protectors are available. [Get a quote here.](#)

## Description

Use the highly-visible fluorescent green 5-Channel Heavy-Duty Yellow Jacket® AMS® System Female Interconnect (model YJ5I-125F-FLG/B) with the Yellow Jacket 5-channel AMS (Advanced Modular System) Kit 1 (model WSA-125-KIT1FLG[CB1]). The Yellow Jacket 5-channel AMS is a patented technology that utilizes separate cable protector sections and ramps to create a system that is fully expandable to hold an unlimited number of cables. By detaching the ramps, you can also quickly add cable runs and ADA compatible side ramps to existing systems.

The Hi-Viz green coloring was created specifically for situations requiring high visibility, using SafeRay™ Technology that provides the best day and night visibility.

The Yellow Jacket AMS readily handles heavy truck and bus traffic while providing easy access for pedestrians,

carts, and wheelchairs. Hinged lids make for easy loading of cables and hoses.

Custom cable protectors can be made with different colors and embossed logos. Get a quote with your specific requirements.

## Specifications

---

Model No	YJ5I-125-F-FLGB
Brand	Checkers Safety™
Color	Lime Green
Quantity Included	1
